

Mongoose Self-Adjusting Water Pump Pliers

MP-7, MP-10, MP-12, MP-Set

Available in three different sizes, these represent the latest innovation in water pump pliers. They automatically adjust to the required size with one hand. The patented system allows for easier, faster and safer work in confined areas without losing any of the features of traditional water pump pliers. These products are designed and manufactured to outperform DIN specifications, and ISO testing standards.
